

Hack Happens: Identity Theft and Mortgage

*Stoneridge Plaza
Pleasanton, CA*

On January 26, National Budget Planners was invited by the BayEAST Association of Realtors to speak to realtors about the impacts of Identity theft in the housing process.

This event was a great kickoff to the 2016 year. National Budget Planners, often educates the community on issues of identity theft, but this presentation came from a different angle as the focus was for realtors and the home buying process.
